God's Girders

Bone & Skeleton
I would like to personally thank you for watching the Origins program. Origins was a special program, near to the heart of my late husband, Russell Bixler.

I trust that the information in this presentation will be helpful in your study of creation science. Thank you for your prayerful and financial support of Origins... you’re making the television production of this program possible.

Man's Framework
An Engineering Marvel!

The 206 bones in the human skeletal system are an engineering marvel. It is a rigid support for the body's organs & tissues, serving as a shield for the brain, lungs, heart, and spinal chord.

Engineers are developing lightweight structural materials, but have yet to devise a substance that grows constantly, lubricates itself, requires no shutdown time, and repairs itself routinely.

Is man's framework a product of random chance processes or the creation of a grand designer?
