Radio isotopes & the Age of the Earth
I would like to personally thank you for watching the Origins program. Origins was a special program, near to the heart of my late husband, Russell Bixler.

I trust that the information in this presentation will be helpful in your study of creation science. Thank you for your prayerful and financial support of Origins… you’re making the television production of this program possible.
THOUSANDS NOT BILLIONS

Challenging an Icon of Evolution
Questioning the Age of the Earth
Purpose of RATE

• The Bible teaches that the earth is thousands of years old.
• The conventional view of origins says the earth is billions of years old.
• Radioisotope dating is the basis for the conventional view.
• The RATE project was started to resolve this conflict by thoroughly exploring radioisotope dating methods.
RATE Phase 1

- Radioisotopes and the Age of the Earth
- 3-year development of research proposal
- First RATE book
RATE Phase 2

- 5-year research phase
- Second RATE book
- Non-technical book
- Video documentary
THOUSANDS... NOT BILLIONS

Challenging an Icon of Evolution
Questioning the Age of the Earth

Dr. Don DeYoung
Scientific Conclusions

• A large amount of radioactive decay has occurred.
• Large quantities of helium and radiohalos in granite and carbon-14 in coal are strong evidence for a young earth.
• Nuclear processes were accelerated during certain periods of earth history.
Scientific Conclusions
Accelerated decay

- Helium diffusion
- Radiohalos
- Carbon-14 in coal and diamonds
Accelerated decay

Scriptural Conclusions

- Creation and the Flood are genuine historical events
- The Bible is scientifically reliable
Scriptural Conclusions

- Creation and the Flood are genuine historical events
- The Bible is scientifically reliable
Bolster Confidence in the Bible

If I have told you earthly things, and ye believe not, how shall ye believe, if I tell you of heavenly things?

John 3:12
Tear Down Another Stronghold of Evolution

For the weapons of our warfare are not carnal, but mighty through God to the pulling down of strongholds; Casting down imaginations, and every high thing that exalteth itself against the knowledge of God, and bringing into captivity every thought to the obedience of Christ.

II Corinthians 10:4–5
There is extensive evidence that the layers of strata in the geologic record have been laid down very quickly, similar to the processes observed since Mount St. Helens erupted.

The major formations of the earth's crust are sedimentary rock beds formed by rapid erosion, transportation, and deposition by water.

Rapid global formation of sedimentary rock beds is evidence that the earth is thousands not millions of years old.
