I would like to personally thank you for watching the Origins program. Origins was a special program, near to the heart of my late husband, Russell Bixler.

I trust that the information in this presentation will be helpful in your study of creation science. Thank you for your prayerful and financial support of Origins... you're making the television production of this program possible.

If evolution were true, then how now shall you live?
I believe, in this extreme part of South America, man exists in a lower state of improvement than in any other part of the world.

While going one day on shore near Wollaston Island, we pulled alongside a canoe...These were the most abject and miserable creatures I anywhere beheld.

Their skill in some respects may be compared to the instinct of animals; for it is not improved by experience: the canoe, their most ingenious work, poor as it is, has remained the same... for the last two hundred and fifty years.

One of our arms being bared, they expressed the liveliest surprise and admiration at its whiteness, just in the same way in which I have seen the ourangoutang do at the Zoological Gardens.

Nor is the difference slight in moral disposition between a barbarian . . . and a Newton or Shakespeare. Differences of this kind between the highest men of the highest races and the lowest savages, are connected by the finest gradations.

Charles Darwin,

“It might also naturally be enquired whether man, like so many other animals, has given rise to varieties and sub-races, differing but slightly from each other, or to races differing so much that they must be classed as doubtful species?”

Charles Darwin

From So Simple a Beginning, W.W. Norton & Company, Inc., page 783
“Do the races or species of men, whichever term may be applied, encroach on and replace each other, so that some finally become extinct? We shall see that all these questions...must be answered in the affirmative”

“Let the strongest live and the weakest die.”

Charles Darwin

"The chief distinction in the intellectual powers of the two sexes is shewn by man attaining to a higher eminence, in whatever he takes up, than woman can attain—whether requiring deep thought, reason..."

"...or imagination, or merely the use of the senses and hands.... the average standard of mental power in man must be above that of a woman."

Man is more courageous, pugnacious, and energetic than woman, and has more inventive genius.

“Many persons are convinced, as it appears to me with justice, that the members of our aristocracy, including under this term all wealthy families...”

“...from having chosen during many generations from all classes the more beautiful women as their wives, have become handsomer, according to the European standard of beauty, than the middle classes;”

“Another **striking feature** of the human genome comes from the comparison of different members of our own species. At the DNA level, we are all 99.9 percent identical.”

- Francis S. Collins

The Language of God, Pg. 125-126
“Thus, by DNA analysis, we humans are truly part of one family. This remarkably low genetic diversity distinguishes us from most other species on the planet.

The Early Adopters of Evolution?
Early Adopters

“At the lowest stage of human mental development are the Australians, some tribes of the Polynesians, and the Bushmen, Hottentots, and some of the Negro tribes.”

Early Adopters

Nothing, however, is perhaps more remarkable in this respect, than that some of the wildest tribes in southern Asia and eastern Africa have no trace whatever of the first foundations of all human civilization, of family life, and marriage. They live together in herds, like apes."

“Australian Aborigines were actually killed and taken to London as museum “specimens of the Missing link between apemen and modern humans. A pygmy by the name of Ota Benga was placed on exhibit in the monkey house at the Bronx Zoo.” in 1906.

The Founder of Planned Parenthood was Margaret Sanger.

She published "The Purpose of Eugenics" (Dec. 1924) and Birth Control and Positive Eugenics (July 1925).
“Eugenic breeders believed American society was not ready to implement an organized lethal solution. But many mental institutions and doctors practiced improvised medical lethality and passive euthanasia on their own.”

In 1934, as Germany's sterilizations were accelerating beyond 5,000 per month, the California eugenics leader... bragged to a colleague, "You will be interested to know that your work has played a powerful part in shaping the opinions of the group of intellectuals who are behind Hitler in this epoch-making program.

Hitler even wrote a fan letter to American eugenics leader Madison Grant, calling his race-based eugenics book, “The Passing of the Great Race, his ‘bible.”

Biological arguments for racism may have been common before 1859, but they increased by orders of magnitude following the acceptance of the evolutionary theory.

Where is Evolution Now?

Evolution is taught as our origin in our public schools.

And What is the result on our beliefs?
“Humanity was thus born of Earth. However elevated in power over the rest of life, however exalted in self-image, we were descended from animals by the same blind force that created those animals…”

E. O. Wilson

From So Simple a Beginning, W.W. Norton & Company, Inc., page 12
“Let me summarize my views on what modern evolutionary biology tells us loud and clear. There are no gods, no purposes, no goal-directed forces of any kind. There is no life after death. When I die, I am absolutely certain that I am going to be dead...”

Dr. William B. Provine, Professor of Biological Sciences, Cornell University cited from Roger Patterson, Evolution Exposed, Answers in Genesis, 2006, pg. 82
“...That’s the end for me. There is no ultimate foundation for ethics, no ultimate meaning to life, and no free will for humans, either.”

Dr. William B. Provine, Professor of Biological Sciences, Cornell University cited from Roger Patterson, Evolution Exposed, Answers in Genesis, 2006, pg. 82
“If a person doesn’t think there is a God to be accountable to, then-then what’s the point of trying to modify your behavior to keep it within acceptable ranges? That’s how I thought anyway…”

Jeffrey Dalmer
"...I always believed the theory of evolution as truth, that we all just came from the slime. When we, when we died, you know, that was it, there is nothing..."

Where is Evolution going?

“Do most victims of sexual abuse suffer no lifelong damage? Do men have an innate tendency to rape? Did the crime rate go down in the 1990’s because two decades earlier poor women aborted children who would have been prone to violence?”

“...Is morality just a product of the evolution of our brains, with no inherent reality? Would it be consistent with our moral principles to give parents the option of euthanizing newborns with birth defects that would consign them to a life of pain and disability?”
